PROJECT:

Turf Booking Project :

Created a Turf Booking platform using HTML, CSS, and JSP for dynamic content. Used Java for backend functionalities, including managing API interactions and database operations. Skillfully managed data storage and retrieval using MySQL. Collaborated within the XAMPP environment in Eclipse, demonstrating expertise in frontend design, JSP implementation, backend development, and software practices.

Internship

Worked for Q connect business solution limited as a customer care executive.

Maintained accurate and detailed records of customers interactions, contributing to the improvement of support process. Participated in training sessions to enhance product knowledge and communication techniques, enabling efficient interaction with customers.

Extra-Curricular Activities:

Represented school and college at Zonal and ZP levels in volleyball, showcasing leadership and teamwork skill.
